EDUCATION

Illinois Institute of Technology – College of Computing, Chicago, Illinois Aug. 2023 - May 2027
Bachelor of Science in Computer Science, **GPA: 3.90/4.00**
Awards/Honors: 6x Dean's List (top 5%); M.A. & Lila Self Academy Award for Leadership; Upsilon Pi Epsilon Honor Society

EXPERIENCE

Trane Technologies, Chicago, Illinois May 2025-Dec. 2025
Developer Intern – Technical Documents Team
- Synthesized client feedback and made UI/UX changes to corporate portal improving accessibility for 5000+ Trane clients.
- Cut contributor onboarding time by 40% and manual documentation effort by 30% by engineering Confluence process playbooks.
- Improved release quality by conducting UAT and analyzing performance data to resolve critical pre-launch defects.
- Accelerated documentation output by 65% by embedding AI writing tools into team's content workflow across 50+ HVAC systems.

G2, Chicago, Illinois Aug. 2023-Dec. 2023
Product Management Intern – Discovery Program
- Spearheaded the feature roadmap and end-to-end delivery of an AI-driven musician matching algorithm within a 4-month window.
- Utilized the Jaccard Similarity Index to improve user matching accuracy and used A/B testing to prioritize high-impact UX changes
- Launched platforms' top ranked feature, "Musician Radar", which grew user engagement by 40% in 30 days (measured by D30 retention).
- Awarded "Best Product Spec" alongside a team of 5, collectively architecting MVP and end-to-end PRD for AI-moderated feature.

PROJECTS

Duolingo "Practice Together" Dec. 2025
Product Case Study | live prototype
- Set Max conversion rate as the primary KPI by speccing new AI-moderated social roleplay feature exclusive to Duolingo Max users.
- Validated feature demand pre-build by deploying a dummy floating button targeting 15%+ tap rate and significant upgrade intent.
- Architected a 3-variant A/B test isolating streak credit's impact across paywall CTR, session activation rate, invite rate and D30 retention.
- Designed Figma prototypes covering full session flow from floating button entry to AI coaching mode and a personalized recap lesson.

Google Hackathon Aug. 2024
Product Manager - "Soul Paws" | live prototype
- Spearheaded 6-person cross-functional team in a fast-paced hackathon to own end-to-end delivery of dog-owner matching platform.
- Developed python-driven intake forms to capture user data, and fed responses directly into a CBARQ-aligned AI matching algorithm.
- Boosted customer engagement by integrating an NLP-driven AI chatbot to guide users through the flow and improve accessibility.
- Secured top placement from judges by pitching a metric-driven go-to-market strategy and navigating a live audience Q&A.

LEADERSHIP

Event Production Manager, Chicago, Illinois May 2024-Present
Illinois Tech Events Services
- Serve as primary client liaison, translating event briefs into actionable production plans and resolving their issues in real time.
- Oversee end-to-end A/V and staging logistics for 200+ campus-wide and external events per year, from setup through teardown.
- Lead student crew across all productions, maintaining communication channels to ensure seamless on-site execution.

Computer Science Teaching Assistant, Chicago, Illinois Aug. 2024-May. 2025
Illinois Tech College of Computing
- Mentored 70+ students weekly on data structures, agile practices and foundational CS concepts.
- Debugged complex data structures and code errors for them accelerating code resolution times and lab grasp.

SKILLS AND INTERESTS

Technical: Java, Python, Angular, Adobe Analytics, C++, SQL, Jira, Confluence, PowerBI, Tableau, MSOffice Suite, Figma, Claude
Product: A/B Testing, UAT, Agile/Scrum, KPI Definition, Stakeholder Management, Product Roadmap, Competitive Analysis, User Research, Go-to-Market, Feature Prioritization, Data Collection Modelling, KPI Definition & Success Metrics.
Certifications: Google AI Fundamentals | AWS Generative AI Foundations | IBM SkillsBuild AI Literacy
Hobbies: Chef, Chess, NCAA Track athlete, Soccer player, Photography, Music, Golf
